DETAILED ACTION

Drawings

1. The drawings were received on 9/13/2005. These drawings are acceptable.

Claim Objections

2. Claim 3 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 3 depends from claim 1, which is now cancelled.
3. Claims 7-12 are objected to because of the following informalities: These dependent claims all make reference to a "control device" in the preamble, whereas the claims that they depend from refer to a "protection device". Appropriate correction is required.

Allowable Subject Matter

4. Claims 4-6 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

Claims 4-6 are allowable because the prior art of record fails to disclose or suggest, in combination with the other claim limitations; a protection device for an

electrical source powering an electrical component or motor, which comprises a test unit that provides a signal indicative of the level of availability of the power source to a control unit, which is interposed between the electrical source and the electrical component, and the control unit includes an inverter that can supply a current of variable frequency to the electric component to limit the quantity of energy.

Claims 7-12 are objected to above for minor informalities, but would be allowable upon correction.

Response to Arguments

6. Applicant's arguments, see Amendment, filed 9/13/2005, with respect to claims 4-6 have been fully considered and are persuasive. The rejection/objection of these claims has been withdrawn.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
